

Kermanshah University of Medical Sciences (KUMS)

Faculty of Health

Personal Detail:

Date: 2021-03-16

Name:	Ali Kazemi Karyani
Sex:	Male
Date of Birth:	1984-04-09
Place of Birth:	Kermanshah
Citizenship:	Islamic Republic of Iran
Designation	PhD (Health Economics)
Department:	Public Health
Address and Telephone Numbers:	Kermanshah University of Medical Sciences, School of Health, Isar square, Kermanshah, Iran.
Postal code:	6719851351
Tel:	+988338262052
Fax:	+988338281991
Present Position:	Academic Member
Academic Positions / Employment:	assistant professor of Health Economic
University and Hospital Appointments and Committees:	member of the committee of research in education (2018 until now)
Medical Licensure and Board Certification:	---
Military Service:	completed
Honors and Awards:	---
Editorial Responsibilities:	----
Professional Societies and Organizations:	----
Major Invited Professorships and Lectureships:	---
Consulting Relationships and Board Memberships:	----
Education:	
	Bachelor of Public Health: Shahid Sadoghi University of Medical Sciences, Yazd, Iran.
	MSc and PhD in Health Economics, Tehran University of Medical Sciences, Tehran, Iran.
Summary:	

Assistant professor of health economics with experience in teaching of students in under-graduate, post-graduate, and Medical doctor (MD). Involved in regular teaching of courses such as Health economics, Pharmacoeconomics, public health, health services management, principles of management, health, planning, management and monitoring of health centers, health care principles, Health systems, research methodology and society health. Also, I am an expert in health researches. The main areas of my research interest are health economics, health evaluation, preferences in health, inequality in health, global burden of disease, and determinants of health.

PhD Thesis Title:

Eliciting preferences of public population about health insurance in Iran, 2016.

Professional Experience

1. Academic Member of Public Health Department, Kermanshah University of Medical Sciences, the West of Iran (2017- Present).
2. Head of department of public health, Kermanshah University of Medical Sciences, the West of Iran (2018-Present).
3. Member of Researcher Committee of research in education, Kermanshah University of Medical Sciences (2018- Present).
4. Head of educational economic committee, Kermanshah University of Medical Sciences (2018-2019).
5. Member of Research Center for Environmental Determinants of Health Kermanshah University of Medical Sciences (2017-Present).
6. Member of Researcher team of Health Economics, Kermanshah University of Medical Sciences (2020- Present).

Honors and Awards

1. Second Rank in 1st National Trade Fair on Health Technology, Tehran, Iran, 2016.

Books Published:

I have published three books in Persian.

1. Ali Kazemi Karyani et al., Health Economic: An Introduction for Professionals (translation).
2. Ali Kazemi Karyani et al., Health care and financing and insurance (translation).
3. Ali Kazemi Karyani et al., the Economics of Health and Health Care (translation).

Research Activities

Principal investigator:

- Investigating the indicators of incidence and case fatality rate for Coronavirus disease and their time trends in the world countries.
- Internal evaluation of the Department of Public Health, School of Public Health, Kermanshah University of Medical Sciences in 2019.
- Investigation of informal payments in health system and its determinants among Iranian households.
- The study of services quality of public hospitals' radiology sectors affiliated to Kermanshah University of medical sciences.
- The Prevalence of Catastrophic Health Expenditures and Its Inequality in Iranian households After Implementation of the Health System Evolution Plan.
- Investigation of induced demand in coronary artery angiography services in Imam Ali Hospital, Kermanshah University of Medical Sciences.
- Evaluation of services' quality of clinics affiliated to Kermanshah University of Medical Science using six dimensions SERVQUAL model.

- Evaluation of services' quality of clinics affiliated to Kermanshah University of Medical Science using six dimensions SERVQUAL model.
- Epidemiological survey and estimation of the economic burden of wild mushrooms poisoning in Kermanshah province in 2018.
- Evaluating the preferences of Kermanshah University of Medical Sciences' students about the contracts for work in deprived areas, using the discrete choice experiment (DCE) method.
- Eliciting preferences of patients referring to Kermanshah hospitals about the attributes of hospital services' quality.
- Evaluating preferences of professors and students of Kermanshah University of Medical Sciences about the way of evaluation of theoretical courses using conjoint analysis.
- The study of prevalence of catastrophic health expenditures and its time trend in Iran using a systematic review and meta-analysis approach.

Co-investigator:

- Identifying the challenges and benefits of online speech therapy services during the coronavirus pandemic in Iran: A Qualitative Study.
- Estimating catastrophic health expenditures in people with disabilities in Iran.
- Reassessment of participants of population-based cohort of non-communicable disease in Ravansar.
- Estimation of the cost of educational services by activity-based costing method in Kermanshah Medical School in the academic year 2019-2020.
- Investigating treatment seeking behavior and associated factors among patients with coronavirus disease in Kermanshah.
- Investigating the indicators of incidence and case fatality rate for Coronavirus disease and their time trends in the world countries.
- Estimating willingness to pay for a hypothetical coronavirus vaccine (COVID-19) using contingent valuation method.
- The Investigation of health systems efficiency to control the coronavirus (COVID-19) pandemic in the world.
- Estimating the economic burden of Coronavirus disease (COVID-19) in Iran.
- Association between individuals' time preferences and physical activity.
- Association between individuals' time preferences and smoking
- Socioeconomic inequalities in non-communicable diseases in Iran using data from Prospective Epidemiological Research Studies in IrAN (PERSIAN) Cohort.
