Biography

Dr. Soraya Siabani, an Associate Professor of public health at the department of Health Promotion and Health Education at the Kermanshah University of Medical sciences (KUMS), is an expert MD, PHD with extensive experiences in medical practice and public health. She obtained her Medical Doctorate Degree from Medical School at KUMS November 1995, and her PhD in Public Health from the Faculty of Medicine at the University of Sydney in March 2015. Given a wide variety of medical experiences acquired during working as a general practitioner along with her active role as chief medical educator officer, and being involved in various research methods covering various medical topics including epidemiological and clinical studies, she is comfortable to work with any area of medical research. Furthermore, working under supervision or with the high quality professors at high standard universities, have provided Dr. Siabani with adequate qualification to conduct major research projects including clinical and epidemiological studies as well as health promotion projects. In addition to conducting over 40 research project including the cohort study of STEMI at KUMS, she has been collaborating with well-known organizations such as GBD and EORP.
