Biography

Sina Ahmadi is an Assistant Professor in the Department of Public Health at Kermanshah University of Medical Sciences (KUMS). His research primarily focuses on health inequalities, social determinants of health, and the impact of social support on overall well-being. With over 14 years of research experience during his Master's, Ph.D. and faculty member. studies, he has developed a strong portfolio of publications in peer-reviewed journals and has presented his findings at numerous international conferences. Sina has successfully prepared and submitted more than 40 research grant projects addressing various health and social issues, demonstrating his commitment to advancing knowledge in these critical areas. In addition to his research activities, he plays an active role in teaching and mentoring students, guiding them in scientific publication preparation, qualitative and quantitative data analysis, and research project supervision. His contributions to the academic community include serving as a member of the editorial board for several international journals, where he reviews manuscripts and supports the dissemination of quality research.
